

JITAMITRA ELECTRO ENGG PVT LTD.

New Range - Fume Extractor & Dust Collectors

Control FUMES ! (WELDING / CHEMICAL PROCESS / SMELTING FURNACES)
Control DUST ! (GRINDING DUST - METALLIC , WOOD FINE DUST)

Customized for Users !

JITAMITRA Electro Engg has been established as "Organized Segment Manufacturer - Centrifugal Fans & Allied equipment's" with own Design Engineering, Manufacturing & testing Setup which can be comparable with any of established manufacturers in India or even abroad.

Fume Extractor

Dust Collector

We assure to deliver a world class product because of our proven strength in " Design Engineering Modern Manufacturing Process (Amada CNC Laser cutting facility, Yawei CNC Press Brake, , Powder Coating& Modern Welding facility - Fabrication set up) and testing facilities.

We always offer right product which is tested and certified before it reaches your site

JITAMITRA make Fume Extractor & Dust Collectors

JITAMITRA manufactures own designed and proven Centrifugal Fans – which is heart of system for Fume Extractor & Dust Collector! Our design for fume extractors & dust collectors is based on energy efficient blower with compact and easy to maintain design – User friendly features like indicator for filter cleaning can be provided on demand..

JITAMITRA MODELS

Model No.	Airflow (CFM)	Airflow (m3/hr)	MOTOR H.P.
JM -1-600	400	600	1
JM-2-1000	600	1000	2
JM-3-1300	800	1300	3
JM-5-1700	1000	1700	5
JM-5-2000	1200	2000	5
JM-7.5-2700	1600	2700	7.5

CLEANING THE AIR, SAVING ENERGY AND INCREASING WORKING EFFICIENCY!

CLEAN AIR

Clean air is an essential requirement for a healthy existence. Throughout the world people are concerned with the quality of the environment i.e. the air we breathe, both internally and externally - In most countries, stricter legislation has been enforced to ensure higher standards with respect to maintaining a clean and healthy atmosphere.

ENERGY SAVINGS

JITAMITRA products are designed with maximum energy conservation in mind and save energy to have " low operating costs "

WORKING EFFICIENCY

JITAMITRA products control your factory environment , protect working staff and increase their operational efficiency

Control FUMES ! (WELDING / CHEMICAL PROCESS / SMELTING FURNACES) Control DUST ! (GRINDING DUST - METALLIC , WOOD FINE DUST)

AREA OF APPLICATIONS :

- Blasting Area
- Painting Area
- CNC Machining
- Grinding shop
- Welding Shop
- Deburring_ Grinding
- Pharma / Food Equipment
- Powder handling
- Finishing area
- Gas / Plasma Cutting area
- Wood working
- Fine dust handling

Contact our Engineering Dept to find right solution towards solution in air pollution control and ensure healthy as well effective environment for your people at shop!
